

Liquid Plant Fertiliser

01 UK

Advice

For excellent results:

Use good quality compost or soil with a 30%–50% mix of perlite.

5 litres

A complete balanced nutrient solution, especially formulated for AutoPot.

Contains pure mineral salts and rich organic plant acids for optimal plant performance.

Directions for use:

Mix with clean water at 5 ml per litre. The standard easy2grow tank (47 litres) will require 250 ml to make up this solution.

Supply to plants throughout the season. Heavily fruiting plants such as tomatoes will benefit from a stronger solution at 10 ml per litre after the second truss has formed.

Download the complete feeding and potting up sheet from the AutoPot website at www.autopot.co.uk

easy2grow Liquid Plant Fertiliser

Compound fluid fertiliser containing calcium oxide and trace elements

2.0 : 1.4 : 2.7 5 litres 5.41 kg

Analysis	% w/v
Nitrogen (N)	1.95
Nitrate nitrogen	1.62
Ammoniacal nitrogen	0.33
Phosphorus pentoxide	
(P ₂ O ₅) water soluble (P)	1.42 (0.62)
Potassium oxide (K ₂ O) (K)	2.72 (2.26)
Calcium oxide (CaO) (Ca)	1.12 (0.80)
Copper (Cu) chelated by EDTA	0.002
Iron (Fe) chelated by EDTA	0.040
Manganese (Mn) chelated by EDTA	0.010
Molybdenum (Mo)	0.001
Zinc (Zn) chelated by EDTA	0.0025

AutoPot, Brill View Farm, Ludgershall Road, Piddington, Nr Bicester, Oxfordshire OX25 1PU, UK

Also contains: magnesium, sulphur, boron, cobalt, nickel; pure kelp extracts.

Manufactured by Growth Technology, UK
